

TINOTENDA BRANDON DUMA

Full-Stack Software Engineer | AI-Augmented Systems | GCP | Blockchain

Harare, Zimbabwe - Remote-Ready Worldwide | +263 781 334 4474 | brandontinoz@gmail.com | linkedin.com/in/tinotenda-duma-735a9797 | github.com/TinzyWinzy

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 5+ years of experience building production-grade web applications, AI-powered platforms, and blockchain systems. Expert in Next.js, TypeScript, React/Node.js, Python, and Google Cloud Platform with deep experience integrating Google Genkit and Gemini AI across multiple production applications. Shipped 15+ full-stack projects including RAG systems, AI-driven education platforms, DeFi protocols, and real-time trading engines. Proven track record of rapid prototyping, CI/CD acceleration, and delivering AI-augmented solutions that solve real business problems.

EXPERIENCE

Software Developer & AI Systems Engineer

Kumby Consulting

Harare, Zimbabwe | Oct 2024 - May 2026

- Designed and deployed a Retrieval-Augmented Generation (RAG) system (KumbyAI) using Google Genkit and Gemini AI on GCP, providing AI-powered biopharma intelligence with automated news analysis, risk identification, and compliance insights
- Built and maintained 5+ client platforms including Africalog.com (WordPress news platform), IndigenousIngredients.com (Shopify e-commerce), JewelsByAlice.com (Squarespace jewelry boutique), and KumbyConsulting.com (Squarespace company site)
- Architected full-stack web platforms with React/Next.js frontends and Python/Django backends, deployed on Google Cloud Platform with Docker containers
- Led rapid prototyping cycles within CI/CD pipelines, reducing development-to-deployment time by 40%
- Developed cloud-based automation pipelines that reduced manual administrative processes by 60%
- Applied secure coding practices (OWASP) and integrated enterprise cybersecurity principles into system architecture

Technical Support Engineer (Systems & Automation)

Tampa Medical College

Remote | Feb 2022 - Mar 2024

- Managed and optimized LMS cloud infrastructure supporting 10,000+ users across critical digital learning systems
- Automated administrative workflows using JavaScript and Node.js, reducing processing friction by 35%
- Enhanced end-user engagement through interactive learning integrations and technical system optimization
- Maintained 99.5% system uptime through proactive monitoring and incident response
- Collaborated with US-based stakeholders in a fully remote environment across time zones

Cybersecurity Analyst - Penetration Testing Intern

Securetia

Remote | Feb 2021 - Mar 2021

- Conducted penetration testing and vulnerability assessments on enterprise web applications
- Performed OSINT reconnaissance and identified critical network vulnerabilities
- Contributed to infrastructure hardening recommendations for client systems

Front-End Developer

Datalabs (formerly Z-Score)

Remote | Sep 2020 - Nov 2020

- Developed SEO-optimized, responsive landing pages in React.js, increasing platform web traffic by 35%

- Built interactive monitoring dashboards using modern JavaScript and React.js
- Collaborated on front-end architecture decisions in a remote Agile team

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, Tailwind CSS, shadcn/ui, Framer Motion, Three.js, PWA, WordPress, Shopify, Squarespace

Backend: Node.js, Python (Flask, FastAPI), Express.js, RESTful APIs, GraphQL, WebSockets, Django

AI & ML: Google Genkit, Gemini AI (text/image/video), RAG Systems, NLP Pipelines, LSTM (PyTorch), XGBoost, LLM Integration

Cloud & DevOps: Google Cloud Platform (Compute Engine, AI Studio, Vertex AI), Firebase (Auth, Firestore, Hosting), Docker, CI/CD, Vercel, Supabase

Blockchain: Solidity, Hardhat, OpenZeppelin, wagmi/viem/RainbowKit, ERC-20, IPFS (Pinata), Polygon, Celo

Databases: PostgreSQL, MongoDB, Firestore, Supabase, Upstash Redis

Security: OWASP Best Practices, JWT/DID/VC, Penetration Testing, Rate Limiting

Testing: Playwright, Vitest, Jest

PROJECTS

Cultural Coder

Next.js, Genkit + Gemini AI, Firebase

AI-powered coding education platform teaching programming in English, Shona, and Ndebele with Zimbabwean cultural analogies. Includes 25+ curriculum lessons, interactive code playground, AI text/image/video generation (Imagen 4.0, Veo 2.0), placement quizzes, classroom management, certificates. PWA-enabled with 11 Genkit AI flows.

Nexus Agronomics

Next.js, Solidity/Hardhat, wagmi, Genkit

Blockchain-powered agricultural investment platform with ERC-20 token (NIT), DAO governance (Governor + Timelock), smart contracts with milestone-based funding, AI-assisted KYC verification, IPFS document storage, and multi-role access (Investor/Initiator/Partner/Admin).

AltarRand

Python, PyTorch/LSTM, XGBoost, WebSockets

Holonic algorithmic trading engine for Kraken Futures. 3-tier architecture: order book analysis (OFI/liquidity), LSTM volatility prediction (TAO/PEPE), XGBoost momentum signals (BTC/ZEC). Real-time WebSocket data ingestion with PPO reinforcement learning optimizer and trailing-stop position management.

Radbit SME Hub

Next.js, Genkit, Firebase

Full-featured SME platform with 6 AI flows: AI mentor chatbot, tender matching, skills assessment, business toolkit, dashboard analytics, and content moderation. Features i18n support, dark/light/system theming, and offline support.

Simudza Africa / InvestorBoard

Next.js, Genkit, Firebase, Upstash Redis

Multi-role investment platform with AI-powered document processing and KYC verification. Features wallet balance system, project CRUD, admin management, PayNow payment integration, Redis rate limiting, and Recharts analytics dashboards.

Age-Cheat-Zim

React, Solidity/Hardhat, Flutter, DID/VC

Blockchain-based digital identity system preventing age fraud in Zimbabwean youth sports. Uses Decentralized Identifiers (DIDs) with verifiable credentials, biometric verification, tamper-proof records on Polygon, and QR code identity cards.

EDUCATION

Bachelor of Science in Applied Computer Technology - United States International University (USIU), Nairobi, Kenya (2018 - 2021)

CERTIFICATIONS

- Google Cybersecurity Professional Certificate
- Google Cloud AI & Machine Learning Fundamentals
- Artificial Intelligence Analyst - IBM
- ALX-T Cloud Developer - Udacity
- Introduction to Cybersecurity & Cyber Attacks - Cisco Networking Academy / IBM
